Diabetes Solution - V3.0

Hey guys, had a couple of cancers and about eleven years ago had my kidney/cat kidney transplant. I've been "clean" (no problem for a long time) but got to the point where I started to "get liver failure" like, and couldnt eat or drink. So its time for a "cure" or at least a solution

Problem is I'm rich and have a liver disease and kidney disorder.

So I watched all those videos/docs on how to 'cure'

dialysis patients and the kidney transplants.... about how you can give patients food and become a normal healthy person?....it doesnt work for me....
